

In the Claims:

Please substitute the currently amended Claims as set forth below in a complete listing of the pending claims. Struckthrough language indicates a deletion, and underlined language indicates an addition. The amendments include no new matter and are fully supported in the application as filed.

- 1.(original) A motion activated light comprising:
 - a power source connected in an electrical circuit;
 - a light source connected to said power source through the electrical circuit;
 - a switch connected to the electrical circuit, said switch responsive to movement to thereby energize the light source;
 - a connector for connecting the light to a predetermined article.
- 2.(original) The light of Claim 1, wherein said connector comprises a split ring.
- 3.(original) The light of Claim 1, wherein said connector comprises a cord.
- 4.(original) The light of Claim 1, wherein said predetermined article comprises a zipper pull.
- 5.(original) The light of Claim 1, wherein said power source comprises a battery.
- 6.(original) The light of Claim 1, wherein said light source comprises a light emitting diode.
